

## CUH Trauma Assessment Clinic (TAC)

Cork Emergency Medicine

<http://EMed.ie>

### What is the Trauma Assessment Clinic?

CUH Trauma Assessment Clinic (TAC) is a safe and fast process for assessing specified injuries which will determine if there is a need for you to attend an Orthopaedic Fracture Clinic. In many cases, there is no requirement for patients to attend a Fracture Clinic.

### When does the Trauma Assessment Clinic Take Place?

The TAC takes place every Wednesday morning.

### Where does the Trauma Assessment Clinic Take Place?

The TAC takes place in one of the consulting/examination rooms within CUH Fracture Clinic.

### Who is present at the Trauma Assessment Clinic?

Consultant Orthopaedic Surgeon, Clinical Specialist Physiotherapist and Nurse.

### Do I need to attend the Trauma Assessment Clinic?

No – you do not need to attend the TAC

### What happens at the Trauma Assessment Clinic?

The Consultant Orthopaedic Surgeon will review your x-ray images and your Emergency Department notes, and will make a decision in relation to your follow-up care.

### What Outcomes can I expect?

You may be discharged from the hospital, you may require a follow-up review at a Fracture Clinic or you may require a physiotherapy appointment.

### How will I find out the outcome of the Trauma Assessment Clinic?

You will be contacted via telephone after the clinic by either the Clinical Specialist Physiotherapist or the Nurse who were in attendance at the TAC. You will receive this between 2.00 p.m. – 4.00 p.m. on Wednesday.

### How can I contact the Trauma Assessment Clinic?

You can contact the TAC telephone line on 087-087-1008967 between 2.00 p.m. – 4.00 p.m. on Tuesday.

Should you have any concerns in relation to your injury, please attend your GP or local Emergency Department.

## CUH TAC – Metatarsal/phalangeal fracture

Cork Emergency Medicine

<http://EMed.ie>

### Advice and Information in relation to : Metatarsal/Phalangeal Fracture

- You have broken a bone in your foot.
- This type of break usually heals well without problems.
- We would expect your foot to be sore for several weeks. During this time, it may be sore to walk on your foot, and it may be helpful to walk on the heel initially and wear supportive footwear.
- You have been provided with support for the foot in the form of a bandage or removable boot. If required, you may also have been given crutches.
- You should walk on the foot as much as pain allows and should gradually discard any supports over the next 3-5 weeks as the pain settles.
- Most injuries heal well without any problems, however it may take several months for your symptoms to settle completely.
- If you are still experiencing symptoms after several months, **please contact the fracture clinic helpline.**
- **You will be contacted by phone with further information.**

Should you have any worries or concerns following discharge from Cork University Hospital, please contact the Trauma Assessment Clinic on 087-1008967 on Tuesday between 2.00 p.m. – 4.00 p.m.
